NCBW~SNJ CHAPTER is tasked to advocate on behalf of women of color and girls in order to promote leadership development and gender equity in the areas of health, education and economic empowerment.

This Science, Technology, Engineering, Arts, and Mathematics Conference presents a valuable opportunity to inform our girls of career options that will afford them a fiscally sound adulthood.

We believe in gender equity, inclusion, respect, racial and social justice, integrity and accountability, economic empowerment, and collaboration.
